

# THE TUNNEL TERMINAL STARTBOX EVO DRIVE

Ideal for carwash tunnels, thanks to this payment terminal your customers will no longer need to get out of the car to make the payment. With all payment methods and its coin-return function, it delivers a ticket for the value of the purchased wash, which can be presented to the operator. A ticket can also be used to start up the vacuum or any other peripheral. It can be equipped with many of the options in our catalogue, while being adapted to the height of the vehicle.
